

****Since oven temperatures and capabilities will vary greatly, reheating to an internal temperature of 165° is your best guide to determine whether your dish has been reheated thoroughly. Please follow the general reheating guidelines below.**

****Be sure to begin reheating in a preheated oven.**

<u>Apps</u>	<u>Oven Temp./Time</u>	<u>Notes</u>
BBQ Ribs	350° - 20-25mins	Transfer to baking sheet for even reheating
